

ABEER ALKHMESE

AI Engineer | Software Engineer | Business Analyst

0553406830 · Abeer.alkhmese@gmail.com · GitHub: Abeer-21 · LinkedIn: Abeer-Yehia · Saudi Arabia

SUMMARY

AI Engineer with a Software Engineering and Business Analysis foundation, specializing in building AI-driven solutions end to end — from gathering business requirements to shipping working software. Hands-on daily experience with agentic AI development tools (Claude Code, Cursor) and AI workflow automation with n8n, using prompt engineering to accelerate delivery and raise code quality. AWS Certified Cloud Practitioner, currently pursuing Anthropic’s Claude Certified Architect – Foundations (CCA-F) and AWS Certified Solutions Architect – Associate.

CORE SKILLS

- AI Engineering:** Prompt engineering, agentic AI workflows (Claude Code, Cursor, Antigravity), LLM-assisted development, AI solution architecture, tool design & MCP, context management.
- Automation & Integration:** n8n workflow automation, REST API design and integration (Twilio, OTO), Swagger/OpenAPI, process automation.
- Software Development:** C#/.NET, JavaScript, React, Material UI, PostgreSQL, JWT authentication, Axios, Git/GitHub, Figma.
- Cloud (AWS):** Certified Cloud Practitioner; Solutions Architect – Associate in progress.
- Business Analysis & Delivery:** Requirements gathering, use-case definition, functional/technical specifications, Agile/Scrum, cross-functional collaboration (Arabic & English).

EXPERIENCE

Business Analyst & AI Developer — Grenoble Partners Jan 2025 – Present

- Gathered and analyzed business requirements across cross-functional teams, translating them into functional and technical specifications aligned with AI-driven initiatives.
- Drove development with agentic AI tools — Claude Code, Cursor, and Antigravity — applying prompt engineering to generate precise code and speed up deployment.
- Built automated business workflows with n8n, connecting APIs and services (including Twilio and OTO) to eliminate manual processes.
- Developed intuitive frontend interfaces using React and Material UI, and supported API and backend integration on AWS cloud foundations.
- Improved code readability and maintainability through refactoring; enhanced site SEO and indexing with Rank Math.

Software Developer (Trainee) — Saudi Digital Academy – C# Bootcamp Aug 2024 – Nov 2024

- Developed server-side applications using C# and .NET with PostgreSQL and Swagger.
- Built responsive interfaces with React and Material UI; integrated frontend and backend with JWT authentication and Axios.
- Named Champion of the Week for performance in the bootcamp (Sep 2024).

Web Developer (450-hour Training) — Abaad Platform Dec 2023 – May 2024

- Built dynamic React components, managed routing, and designed UIs using Figma and Material UI.
- Optimized React components for performance; collaborated in team projects using Git branching and code integration.

Web Developer — Software Engineering Club, University of Jeddah Sep 2023 – Dec 2023

- Contributed to club web projects and publications — “Best Department in Publications” award (Feb 2024).

EDUCATION

Bachelor of Software Engineering — University of Jeddah, Second Class Honors 2024

CERTIFICATIONS

- Claude Certified Architect – Foundations (CCA-F), Anthropic — *in progress, expected 2026*
- AWS Certified Solutions Architect – Associate — *in progress, expected 2026*
- AWS Certified Cloud Practitioner, Amazon Web Services (Feb 2026)
- BCS Foundation Certificate in Architecture Concepts and Domains (Mar 2025)
- Foundational C# Certification, Microsoft via freeCodeCamp (Sep 2024)
- 450-hour Training in Technology and Website Development, Abaad Company (May 2024)
